The Shift Sales Report lists all bills entered into the terminal, and all tickets sold, since the last time that the Shift Meters were cleared. (After printing the report, the terminal displays a request that permits the shift meters to be cleared of all previous information.)

This report is useful for a 24-hour store where more than one person is responsible for ticket sales. It provides an excellent means for perfect cash and ticket reconciliation.

These sales reports list all bills entered into the STVM, and all tickets sold, for the current day, week, or from the first day of sales until present by game and bin number.

The reports list sales — number of tickets and their total dollar value — by bin (Burster), as well as totals for all bins.

The accounting period runs from 12:01 a.m. to the time that the report was requested.
